## **DETAILED ACTION**

Acknowledgment is made of the receipt of the amendment filed on 9/11/01. Claims 1-6 are currently pending.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitations citing “embedded asymmetric data” are rendered indefinite since it is unclear as to what axis the data is asymmetric to. The limitations are vague since instances exist when the data may be symmetric in one axis and asymmetric in another.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. Claims 1, 3, and 4, drawn to the apparatus, and method claims 2, 5, and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Rhoads (US 6,122,403).

Rhoads teaches a computer 942 generating a master snowy image 972 which is added to a raw image 970 to produce a unique image which is printed onto a personal cash card 950. The master snowy image 972 of the unique image is obscured. Authenticating the card 950 may be done on a scanning system by decoding the image and displaying the decoded data on a local computer screen (col. 60, line 64- col. 64, line 23).

*Response to Arguments*

5. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
